Edutek

CCNA Modules 1 & 2

Experience

Telus International | Remote

Website Support Specialist

Jun 2020 - Aug 2021

- Provided technical support to website owners worldwide, resolving issues related to web design, domains, SEO, e-commerce, and website performance.
- Diagnosed complex technical issues and provided step-by-step solutions to customers, ensuring a smooth and seamless customer experience.
- Managed a high volume of customer interactions while consistently meeting established quality, efficiency, and customer satisfaction targets.
- Collaborated with cross-functional teams to investigate escalations and drive issue resolution.

Telus International | Remote

Senior Website Support Specialist | Portuguese

Sep 2021 - May 2022

- Managed complex customer escalations and served as a subject matter expert for Portuguese-speaking customers.
- Provided guidance and ongoing support to frontline agents, improving the quality and efficiency of case resolution.
- Collaborated closely with leadership and operations teams to resolve high-impact customer issues and improve support processes.
- Conducted root cause analysis on recurring issues and contributed to continuous improvement initiatives.
- Delivered exceptional customer experiences while balancing business objectives and customer needs.
- Supported training, coaching, and knowledge-transfer efforts within the team.

Telus International | Remote

Technical Support Engineer

Jun 2022 - Sep 2023

- Performed detailed troubleshooting and resolved complex customer inquiries across major support channels.
- Investigated root causes of issues by isolating failures and consulting technical documentation.
- Collaborated with business and engineering teams to maintain transparent communication and ensure efficient issue resolution.
- Worked with API integrations, GraphQL, and WorkOS management CRMs.
- Developed recurring reports to evaluate platform status and quality.

GoTo Technologies | Remote

Support Specialist

Oct 2023 - Feb 2025

- Performed in-depth troubleshooting with an emphasis on first-contact resolution and minimizing the need for escalation whenever possible.
- Managed customer inquiries about GoTo products and basic networking issues, ensuring prompt and professional resolution.
- Maintained detailed records of all customer interactions, troubleshooting steps, and solutions provided using designated tracking systems.
- Interacted efficiently with GoTo customers by phone, chat, and email as needed.

GoTo Technologies | Remote

Partner Technical Account Manager

Mar 2025 - Present

- Technically manage strategic channel partner accounts, providing consultative guidance on the adoption, positioning, and commercialization of GoTo's solution portfolio, including communication, collaboration, remote support, and business telephony tools.
- Develop technical and commercial partner enablement strategies by aligning product capabilities, end-customer needs, and market opportunities to increase sales conversion, improve retention, and strengthen the channel value proposition.
- Design and present customized value propositions, use cases, functional demos, and technical recommendations that enable partners to position GoTo solutions more effectively within their customer portfolios.
- Provide operational and technical follow-up on partner initiatives, including enablement and commercial/technical inquiries, internal coordination, and opportunity analysis to improve channel efficiency and business expansion.

CENGICAÑA | Remote

Full Stack Developer | Internship

Jan 2026 - Present

- Develop full-stack systems used by the sugarcane production sector, leveraging geographic data and robust information management to support operational decision-making.
- Build REST APIs, frontend functionality, and database integrations while working on performance improvements and implementing clean interfaces.
- **Stack:** PHP, Laravel, Vue, Redis, MySQL, Docker, PHPUnit.
